Better Communication, Better Outcomes

Using conversations surrounding cancer as the training ground, this three-hour, interactive workshop gives your team the what (tools) and the why (mindset) for the difficult conversations that are at the heart of effective teamwork.

.....
The ROI is seen in the reduction of significant operational costs through improved communication, impacting:

- **Staff Retention:** Investing in skills that reduce burnout is a direct investment in retaining your most valuable asset—your people.
- **Team Cohesion & Performance:** Reducing communication breakdowns that kill productivity creates a safer environment where teams can do their best work.
- **Risk Mitigation:** Confident, clear communication reduces the misunderstandings that lead to formal HR complaints, grievances, and a toxic work environment.

Logistics at a glance

format: in person or live online

includes: The Cancer Cards and a journal for each participant

audience: all employees

The investment

Packages start at \$1997 online and \$3997 in person.

A variety of upgrades is available.

“These conversations/cards are specific to cancer, however the carryover to so many diagnoses, grief/loss, and communication in general is quite apparent.” -Kendra Flory
